

Mederi Academy Courses

1. Mederi Care Fundamentals: Host Evaluation, Life Force, and the Role of Mederi Care in Aging, Chronic Disease, and Health Optimization
2. The Mederi Care Conceptual Framework: Thematic Elements, Vital Energies, Organ Networks, and the Patient/Practitioner Relationship
3. Introduction to Mederi Care Therapeutics: Exploring the Therapeutic Toolboxes
4. The Microenvironment: Genetic, Molecular, and Cellular Analysis
5. Cancer, The Disease of Our Time: From Traditional Principles to Genetic Signatures and Molecular Markers
6. Cancer Biomechanics and Influence on the Microenvironment

Our modular courses are offered on-demand and include the option to attend live "Ask Me Anything" mentorship sessions on Zoom, held twice monthly with founder Donnie Yance, CN, RH (AHG), and Dr. Jason Miller, DACM, LAc.

Each course requires approximately 12–30 hours to complete. Upon successful completion, participants receive a certificate of completion.

Curriculum Content & Live Mentorship

Our courses combine recorded webinars taught by subject matter experts with live mentorship sessions via Zoom. These interactive Q&A sessions are offered twice monthly by Donnie Yance, CN, RH (AHG), and Dr. Jason Miller, DACM, LAc.

During these sessions, participants may present patient cases for in-depth review and discussion using our case submission form. Each session is recorded and remains accessible while learners are enrolled in a course or through our exclusive Practitioner Membership.

Mederi Academy's Practitioner Membership is designed for healthcare providers who wish to deepen their proficiency in the clinical application of Mederi Care. Through ongoing access to live Q&A sessions, members receive expert mentorship, clinical insight, and meaningful collaboration with a community of like-minded practitioners.

What You'll Gain

With this unique online training program, you will:

- **Advance your clinical knowledge** to support your most vulnerable patients
- **Master skills and strategies that best support your cancer patients** on their journey back to health and vitality
- **Learn evidence-based approaches to complex cases** from a curriculum that integrates biological sciences with botanical and nutritional medicine
- **Improve patient outcomes and quality of life** through engaging our webinars, case studies, live ask-me-anything sessions with our subject matter experts, and more.

We want to hear from you!

MEDERI ACADEMY

Online Training in Integrative Oncology & Health Optimization

Mederi Academy

ONLINE TRAINING IN INTEGRATIVE ONCOLOGY & HEALTH OPTIMIZATION

Mederi Academy® is an online training program that teaches healthcare practitioners how to incorporate the Mederi Care® model (also known as Eclectic Triphasic Medical System or ETMS) into their practice. The goal of the program is to provide clinicians with the skills they need to enhance patient vitality and significantly improve the quality of life and longevity for people facing cancer and other serious health challenges.

Mederi Academy® is open to credentialed, certified, or licensed healthcare practitioners who are committed to providing comprehensive care in the field of integrative and holistic medicine. With a strong emphasis in botanical medicine, our curriculum addresses the deep gaps in the current healthcare model and provides advanced training in a holistic, unitive form of medicine and healing, developed by our founder, Donnie Yance.

Mederi Academy® will give you everything you need to best support your patients through any chronic condition or complex case, including cancer. Our curriculum will help you gain the confidence and fluency you need to hone your clinical skills to significantly improve patient outcomes. Whether you are currently working with patients with cancer or other complex conditions, or want to gain the knowledge you need to confidently support patients with cancer in your practice, this program is for you.

You will gain the skills and clinical tools of our leading-edge methodology for patient care, which will help you develop integrative therapeutic strategies for addressing the most challenging chronic diseases that healthcare providers face in the clinic today.

We utilize the most current online learning methods to bring you a comprehensive, engaging educational experience. Our program is designed to be flexible, so you can attend the courses that most support your practice and professional development, in a time-frame that best suits your life and schedule. Our curriculum integrates conventional science, genetics, and immunology with botanical and nutritional medicine. Our course content ranges from how to utilize the six toolboxes of Mederi Care® (botanical, nutritional, dietary and pharmaceutical medicine, along with lifestyle recommendations and spiritual care) to improve patient outcomes, to an in-depth exploration of cancer biomechanics and biochemistry, and how to target these with botanical medicine.

Our expert faculty includes Donnie Yance, along with other esteemed clinicians and educators, including Dr. Dwight McKee and Dr. Jason Miller, who also serves as Head of Faculty and Content Development.

The knowledge and skills you gain in the Mederi Academy® will enable you to build tailored, comprehensive protocols that help your patients thrive regardless of their condition. You'll be empowered to become a better advocate for your patients, thus allowing you to be a unifying hub of information and insight, bringing the best of various forms of medicine together, so that you can guide your patients through their health and medical journey in a truly integrative way.

"I attended a combined 7 years of naturopathic and Chinese medical school, and nowhere in that education did I encounter such a coherent, thoughtful, and heartfelt approach to the restoration of health and the treatment of cancer and other serious illness. The Mederi Care/ETMS paradigm truly represents both the future and the best of medicine." ~ Dr. Mark Bricca, Naturopathic Physician

Donnie Yance, CN, RH (AHG) ~ Founder, Faculty, & Lead Architect of Mederi Care®

Donnie Yance is the Mederi Academy® Founder, as well as the Founder and Lead Clinician of Mederi Center®. He created the Mederi Care® model and methodology through more than thirty years of clinical practice. An internationally known Master Herbalist and Certified Nutritionist, Donnie is the author of two books, *Herbal Medicine, Healing and Cancer*, and *Adaptogens in Medical Herbalism: Elite Herbs and Natural Compounds for Mastering Stress and Aging*. Donnie is renowned for his extraordinary knowledge and deep understanding of the healing properties of plants and nutrition. In addition to his work with Mederi Academy, Donnie is an avid researcher and frequently lectures throughout the U.S. and abroad®. He regularly shares insights through his blog at donnieyance.com.
