

# MEDERI CENTER

Wholistic Health and Healing  
Patient Care | Research | Education

**Welcome to Mederi Center**  
*Thank you for inquiring about our services!*

**Our Care Team** provides clinical support and expert care in evidence-based integrative health services for anyone facing chronic illness or seeking guidance for lifelong wellness. Each practitioner brings their own expertise to the clinical team, while following our Founder Donald Yance's unique approach to wholistic healthcare and integrative oncology called Mederi Care (also referred to as the Eclectic Triphasic Medical System or ETMS).

Mederi Center practitioners combine their extensive knowledge of botanical and nutritional medicine to design comprehensive, custom protocols specific for each individual, integrating modern research with time-proven traditional healing modalities. Additionally, appropriate lifestyle recommendations that take into account the mental, emotional and spiritual aspects of a person are addressed to help restore health and well-being at all levels.

## **Becoming a Patient**

We currently have two naturopathic physicians and licensed acupuncturists that are accepting new patients: Dr. Susan Saccomanno and Dr. Pamela Plank. They each have extensive clinical experience as a naturopathic physicians, plus expertise and years of experience in the Mederi Care/ETMS methodology for patient care.

## **Scheduling an Appointment**

If you decide to schedule an appointment, please complete the Patient Intake Form and Rate Schedule and return to [info@medericenter.org](mailto:info@medericenter.org) or fax to 541-488-6949. You can also mail to the address below.

**Please Note:** The Patient Intake form is a fillable PDF document. **Please save the document to your computer before filling in the blank form and open the document in Adobe Reader or Acrobat.** If you open the document directly from your email box, and fill in the form boxes, your information will not be saved. MAC users: your information will not be saved when completing data in Previewer.
