

MEDERI CENTER

Wholistic Health and Healing
Patient Care | Research | Education

Welcome to Mederi Center
Thank you for inquiring about our services!

Our Care Team provides clinical support and expert care in evidence-based integrative health services for anyone facing chronic illness or seeking guidance for lifelong wellness. Each practitioner brings their own expertise to the clinical team, using our founder Donald Yance's unique approach to wholistic healthcare and integrative oncology called Mederi Care (also referred to as the Eclectic Triphasic Medical System or ETMS).

Mederi Center practitioners combine their extensive knowledge of botanical and nutritional medicine to design comprehensive, custom protocols specific for each individual, integrating modern research with time-proven traditional healing modalities. Additionally, appropriate lifestyle recommendations that take into account the mental, emotional and spiritual aspects of a person are addressed to help restore health and well-being at all levels.

Our Practitioners

We have several clinicians accepting new patients. All have extensive clinical experience working with a variety of conditions, plus expertise and years of experience in the Mederi Care/ETMS methodology for patient care. We offer HIPPA compliant video consultations as well as phone consultations. Founder Donnie Yance is not accepting new clients at this time.

ChARM Patient Portal

ChARM is a Personal Health Record portal that manages and gives you easy access to your health information. If you have requested intake paperwork, you will receive an invitation to set-up your ChARM patient portal via email. **Please accept this invitation as we will be sending your intake paperwork to fill-out via this portal.** It is simple and quick to set-up. The patient portal is used for appointment requests and reminders, document sharing, and all communications with our Care Team.

Collecting Medical Records and Scheduling an Appointment

Once you have submitted your intake paperwork, our scheduler Diane will call you to schedule your initial consultation or let you know if we need additional information.
